# Safari Extensions

Safari extensions add different functionalities to the browser. To see the extensions pull down the Safari Menu and select Safari Extensions. There are several categories of extensions, Let's use Discovery.

Now you have a bunch of extensions to choose from, some are free, some have Premium versions of the free extensions and many are paid extensions.

Let me demonstrate how an extension works. I'm going to add an extension call 'WeTransfer'. It's free. Select the WeTransfer extension and tap 'Get', then tap install.

The WeTransfer icon,

will be found in the top menu bar. To use it, simply click and drag large files to this icon and then then copy the link (by tapping the icon).

Then create and email and paste the link in the email. Send it and the recipient will receive these large files in a single transfer.

So, this extension allows you to send large files in a single transfer.

Then
