

iPhone Block this Caller

During the Holidays, Somehow I got on a 'Marketeer's' List and I was getting 2-4 texts a day offering Money for the Holidays.

So at first I just deleted the message, but after 3 days of this I had to find a way to get rid of this Jerk, one way was in his message he offered to get off this list but texting "9" in a reply. That seemed dubious and probably would just validate that my cell number was real and operating and he probably sells that list to other nuisance 'Marketeers'. This would just cause me further problems.

So I hadn't done this in a while, so I had to rethink how to block a caller. You can see this message has a phone number, but it's not from the sender, the senders number is on the Message header.

So I copied the number and added him as a contact in Contacts, for the Name I called him Nuisance. I went to my iPhone Contacts and Searched for Nuisance and at the bottom of the iPhone contacts, there is an option to Block this Caller. I clicked on that and the caller has been blocked. My concern

is that it's just blocked from Phone calls and not messages, but so far I haven't been bothered by Nuisance.

BTW, I had similar messages from another numbers, so I repeated this and named him Nuisance 2.
